<p>I would highly recommend Bumpkins as a great day nursery! Have recommended to family and friends. My son has been attending since he was 9 months and Bumpkins made my return to work go smoothly! My son loves attending on his days and has made great bonds with the staff from across the nursery. My son's favourite time of day is being outside and the space that they have for the children is great, my son loves to spend time at nature rangers exploring all things nature, playing in the mud, learning about the outside world and playing with his friends.</p>

Bumpkins is an overall outstanding nursery in our eyes. Both my children have come to Bumpkins, one still in Bumpkins at the moment. Bumpkins provides so many opportunities for the children to thrive. My son thoroughly enjoyed his time through Bumpkins and I truly believe Bumpkins has helped my son prepare for school. The staff are all welcoming and friendly and I feel any information given to the staff regarding my children, is then shared with the whole team thoroughly. The staff promote independence with the children and the children are given a large variety of activities that have so much thought go into them. My daughter loves her time at nursery and has built strong bonds with the staff who look after her. The nursery organises visits from other companies, for example, a mobile farm came to the nursery. My daughter got the opportunity to meet all the animals, learn about them and stroke them. We believe Bumpkins is a great nursery for children and we highly recommend Bumpkins to others.

Bumpkins are a great nursery. My son started there 2 years ago at age two and is already fully prepared to start reception. He really enjoys his nursery and is always happy to go there. He made close friendships and speaks very fondly of staff - even those that are not in his group. Staff are wonderful - very kind, attentive and caring. The atmosphere is always very friendly and dynamic. Management are always helpful and responsive. There are always improvements going on - in outdoor space, inside areas and menus. I work full time and was very happy to find a place for my child which can ensure a very safe, comfortable and nurturing environment for 10 hours every day. We will miss Bumpkins when my son goes to school next year!

Bumpkins Day Nursery are awesome!!! It was an emotional time when I first left my son at 10 month's old at nursery, but everyone at Bumpkins were so lovely and understanding. We had several settling in sessions so we were all comfortable by the time the full days started. My son thoroughly loves his days at Bumpkins! And I feel confident leaving him there. If I want to check on him I can text or call in, and most days I get updates on his development and activities through Eylog. They are a wonderful bunch of people, enthusiastic and genuinely care about what they do. I'd recommend them with a big thumbs up. Thank you Bumpkins!!

Bumpkins Day Nursery is an amazing service provider of early years care and education. My son loves every minute spent here and is developing amazingly. They are very supportive, incorporating specific focus areas that we have been doing at home and that makes me love this nursery. What other nurseries nearby don't offer is the outdoor space and constant use of interesting learning and play in all environments. Finally the quality of food, both from source and how it is cooked is first class.
